All the right features to get the job done

High-efficiency diesel engines

Offering more torque with fewer revs compared to competitors in its class, tractors in this series come with Yanmar or TYM engines, engineered to maximize fuel efficiency.

Deluxe cabin with climate control

These tractors offer entry and exit from either side and host all the modern amenities for operator comfort. With greater visibility, heating and A/C as standard, operators can be productive, safe and comfortable in all kinds of weather.

High capacity fuel tank for time-intensive work

High capacity fuel tanks allow drivers to take on longer jobs without stopping for fuel. Combined with the engine, these tractors promote fuel-efficient operation and lower cycle times.

Hydraulic valves for add-on functionality

3rd function or 6-port valve options on the rear of the tractor allow implements of different functions to be controlled easily. The hitch lift capacity allows for trailers used in row crop farming or material handling, which can be fit with hydraulic brakes.

Interior detailing to promote operator comfort

Operators can easily activate core functions of the tractor from the main console, including the PTO on/off switch. Detailed digital alerts and indications give operators at-a-glance understanding of the tractor.
